Dave et al –

Thanks for getting a 90% draft to us. I'll spend more time after our call reading through it carefully but wanted to give you some initial feedback.

## Ex. 5 Deliberative Process (DP)

I look forward to our discussion at 2.

Attached are some quick comments/thoughts for discussion during our conference call. Sorry I meant to get this to you sooner. Actually worked late to finish material on a reg review, draft model to send out, another site dispute material, and a draft ROD. So I thought I would focus on this all day, and my access to email was blocked until 4:30. You can't make this crap up.

## Ex. 5 Deliberative Process (DP)

Sorry for my delays, I will still be working on this so if anyone has questions or show stopper comments please feel free to let me know.

Stay safe and well.  
Dave

Dave –

I don't have any substantive comments on the partial draft, but a couple of suggestions on wording in the section describing your approach (section 2.1).

## Ex. 5 Deliberative Process (DP)

I look forward to receiving your report next week.

All, BLUF, I would like to have our call today but short to not waste your time. The attached report is maybe a 40% document. I sincerely apologize for that, been putting out fires on too many fronts past few weeks. What I would like to do is ask you each to not waste any time reading it but take 10 min to look at sections and example content and let me know if this is on track or way off base on our call.

I would like to get this completed for concurrent review on Tuesday morning, if that works? I know this has dragged on too long and want to get it done. Completely on me, and not how I like to or normally do things.

Dave

Dave –

Understood. Unless Stuart still wants to have a call this week let's reschedule for next week. Is it doable to get us a report by Tuesday, with a call on Wednesday?

Wayne and Stuart, I apologize, but our report is not going to be ready this week. I recommend we postpone another week, but if you would like to talk tomorrow we still can. I hate to blame it on COVID but it is what it is. FYI: Jon has had issues with connection and computer. I have been working shutting down our Maywood Site due to a positive COVID case. As such, I have not been able to work on the report the past week.

My calendar is clearing given the site shut down. So I do believe another week is sufficient.

Dave, Julie, and Jon –

Thanks for the update. We're all facing challenges in trying to keep the work moving.

The plan is still to get Stuart and me a draft report and follow up with a call? If so, is it doable to get us the draft report Monday or Tuesday, and plan for a call Wednesday or Thursday of next week?

**Subject:** RE: Hunters Point RESRAD BUILD/BPRG comparison

My connections keep getting dropped, like a lot of other EPA folks. Speed wise it is much better this week than last. Actually with the improved work on EPA's end and me having FIOS, my pc is working better now than it ever does in the office.

Ok, thanks David. I understand computer problems, I was just able to access EPA's intranet yesterday afternoon and my work drives on Monday. I am still trying to get access to our old email system to find some emails from 10 years ago.

Stuart, I have had significant computer and connection issues the past 2 weeks. I have been trying to continue this effort but been slow. I think they have finally gotten me to about 90% capability. I am not sure of Jon and Julie's status but I need another week if possible.

Hope you and family are well.

Dave
